

## Washable Fireproof PVC Wall Panel White PVC Cladding Sheets

### Our Product Introduction

#### Basic Information

- Place of Origin: CHINA
- Brand Name: HB DECOR
- Certification: MSDS ,REACH,ISO,SVHC
- Model Number: PVC WALL PANEL
- Minimum Order Quantity: 1000s1m
- Price: USD5-10/M2
- Packaging Details: CARTON/PALLET
- Delivery Time: 10days after receive deposit
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 40HQ/Month

#### Product Specification

- Color: White
- Material: PVC
- Mouldproof: Yes
- Size: 2.6m X 0.26m
- Surface: Smooth
- Thickness: 4mm
- Warranty: 10 Years
- Waterproof: Yes
- Advantage: Washable, Fireproof
- Highlight: **SVHC Fireproof PVC Wall Panel, Washable PVC Cladding Sheets, SVHC PVC Cladding Sheets**

## Product Description

Washable Fireproof PVC Wall Panels and White PVC Cladding Sheets offer an exceptional solution for enhancing the look and safety of your spaces.

These wall panels and cladding sheets are designed with functionality in mind. The washable feature ensures that they remain clean and hygienic, making them ideal for areas that require frequent cleaning, such as kitchens and bathrooms.

The fireproof property is a crucial aspect, providing an added layer of protection to your property and occupants. It gives you peace of mind, especially in commercial or high-risk environments.

The white color of the PVC cladding sheets offers a clean and fresh aesthetic, brightening up any room and creating a modern and inviting atmosphere.

For example, in a commercial kitchen, the washable and fireproof nature of these panels helps maintain a safe and sanitary environment. In a living room, the white PVC cladding sheets can add a touch of elegance and simplicity.

Whether for residential or commercial use, Washable Fireproof PVC Wall Panels and White PVC Cladding Sheets combine practicality, safety, and style to transform your walls effectively.

### Applications:

In recent years PVC has become an advantageous alternative than traditional materials for decorating and rearranging of interior spaces in the various environments such as residences, hotels, restaurants, industrial units, individual offices, bathrooms, kitchens, laundries.

### Fire test report

Report No.	V03-1300143		Specification	1000×10 mm		
Product	PVC Wall Panel		Standard	BS EN 13501-1:2007		
Test Items		Measure Unit	Technical Requirement	Test Results	Individual Judgment	
Fire growth rate index (Figra)		W/s	C	≤250	105	Compliant
Lateral flame spread ( LFS)		m		<edge of specimen	Yes	Compliant
Total heat release within 600 s(THR 600s)		MJ		≤15	11.5	Compliant
Flame spread (Fs)		Surface		mm	≤150	30
		Edge			33	Compliant
Smoke growth rate (SMOGRA)		m2/s2	S2	≤180	192	S3 Compliant
Total smoke production within 600 s(THR 600s)		m2		≤200	666	
Flaming droplests/particles		-----	d0	No flaming droplets/particles occur within 600s	Yes	Compliant
Ignition of the filter paper		-----		No ignition of the filter paper	Yes	Compliant
Conclusion		The combustion performance of sample is satisfied BS EN 13501-1:2007 about grade C-s3,d0.				

### Competitive Advantage:

We are professional in PVC extrusion products for more than 20years. With advanced production lines from Germany and Italy, we have a total annual capacity of over 5 million square meters PVC wall and ceiling panels, over 6,000MT plastic-wood products, and over 2,000MT other PVC products. Our company has strong technology capability. We have more than 20 engineers and technicians who are specializing in developing new products. All kinds of types and design colors we have developed are leading the fashion in Chinese decoration field. We have more than 140 chain shops and own several patents in China. Our products sell well in Europe, the Middle East and North America.
