## Product Description

The UPVC soffit board and panels offer a comprehensive solution for reliable building coverage. The anti-UV feature of the soffit board is crucial, as it helps protect the material from the damaging effects of ultraviolet rays from the sun. This ensures that the color and integrity of the soffit remain intact over time, even with prolonged exposure.

The moisture resistance of the UPVC soffit panels is another significant advantage. It makes them suitable for various weather conditions and helps prevent issues such as mold growth, warping, or deterioration caused by moisture.

The long lifespan of these UPVC soffit products is a testament to their quality and durability. They can withstand the elements and the test of time, providing consistent and reliable protection for your building.

Overall, the combination of anti-UV properties, moisture resistance, and a long lifespan makes UPVC soffit boards and panels an excellent choice for those seeking a dependable and long-lasting building cover.

### Features:

Product Name: UPVC Soffit Board

Material: Unplasticized Polyvinyl Chloride (UPVC)

Length: 2.8/2.9/3.0m

Thickness: 1.5MM

Package: Carton

Minimum Order Quantity (MOQ): 1000 Pieces

### Technical Parameters:

Property	Details
Surface Treatment	PVDF
Material	UPVC
Application	Soffit, Wall Cladding
Shape	Rectangle
Features	Weather Resistant, Durable, Easy To Install
Thickness	1.5MM
Length	2.8/2.9/3.0m
MOQ	1000 Pieces
Package	Carton
Width	300mm
Product Name	Unplasticized Polyvinyl Chloride Soffit Board, Unplasticized Polyvinyl Chloride Overhang Fitting, Unplasticized Polyvinyl Chloride Lining Board

### Applications:

HB-DECOR Unplasticized Polyvinyl Chloride (UPVC) Soffit Board is a great choice for any residential or commercial building project. These soffit boards are made from UPVC, making them highly durable and weather-resistant. With a minimum order quantity (MOQ) of 1000 pieces, they come in a wooden color and feature a PVDF surface treatment for extra protection. The boards have a rectangular shape and can be used to create a variety of applications and scenes. By using HB-DECOR UPVC Soffit Board, you can ensure that your building project will have a high-quality and long-lasting solution.

### Customization:

HB-DECOR Customized PVC Soffit Board

HB-DECOR has a wide range of Unplasticized Polyvinyl Chloride (UPVC) Soffit Board customizations available for you to choose from. Our UPVC Soffit Board is made from high-quality material that is weather-resistant, durable, and easy to install. This product features a PVDF coating with a wooden color and a rectangular shape. Packaging is available in a carton.

Our UPVC Soffit Board is perfect for outdoor use and has a variety of features, such as:

Weather Resistant

Durable

Easy To Install

PVDF Coating

Wooden Color

Rectangular Shape

Carton Packaging

Choose HB-DECOR for your PVC outdoor soffit needs and experience a product that is high-quality and reliable. We guarantee that our UPVC Soffit Board is the perfect solution for your project.
