

Moisture-Resistant PVC Soffit: The Ideal Choice for Areas with High Humidity and Rain

Our Product Introduction

For more products please visit us on hb-buildingmaterials.com

Basic Information

- Place of Origin: CHINA
- Brand Name: HB-DECOR
- Certification: MSDS,ISO,CE
- Model Number: PVC SOFFIT
- Minimum Order Quantity: 3000SQM
- Price: USD2-7.5/PCS
- Packaging Details: CARTON
- Delivery Time: 10days after receive deposit
- Supply Ability: 40CONTAINERS PER MONTH

Product Specification

- Weather Resistance: Yes
- Fire Resistance: Yes
- Product Name: UPVC Soffit Board
- Installation Method: Screws
- Moisture Resistance: Yes
- Maintenance: Low
- Thickness: 1mm
- Durability: High
- Highlight: **MSDS White Plastic Soffit Board,
1mm White Plastic Soffit Board,
Commercial Plastic Soffit Board**

Product Description

The Moisture-Resistant PVC Soffit is specifically designed to excel in regions with high humidity and frequent rainfall. This soffit material offers a reliable solution for such challenging environments.

PVC, by its nature, is inherently moisture-resistant, which means the soffit can effectively prevent water absorption. This quality is crucial in areas where excessive moisture is a constant concern.

Whether it's the damp atmosphere of a coastal region or the heavy downpours of a rainy area, this soffit remains unaffected. It does not warp, deteriorate, or develop mold due to moisture exposure.

The ideal choice for these areas, the Moisture-Resistant PVC Soffit provides long-term protection and durability. It helps maintain the integrity and appearance of the building, reducing the need for frequent repairs or replacements.

Investing in this soffit ensures a stable and aesthetically pleasing solution that can withstand the harshest of moisture-related conditions.

Features:

Product Name: UPVC Soffit Board

Fire Resistance: Yes

Finish: Smooth

Material: UPVC

Thickness: 1mm

UV Resistance: Yes

Special Feature: Ultraviolet Shielded Soffit Board, Ultraviolet Protected Soffit Board

Technical Parameters:

Parameter	Value
Finish	Smooth
Installation Method	Screws
Fire Resistance	Yes
Weather Resistance	Yes
Durability	High
Thickness	1mm
Colour	White
Size	5m
Moisture Resistance	Yes
Maintenance	Low

Applications:

HB-DECOR presents UPVC Soffit Board, made from Unplasticised Polyvinylchloride (UPVC) material with a smooth finish, and is provided in a range of attractive white colours. This UPVC Soffit Board is highly resistant to moisture, and is also Ultraviolet Protected (UV) to provide long lasting durability and strength. This high quality PVC Soffit Board is designed to be easy to install and is the perfect solution for completing the look of a variety of exterior styles.

This UPVC Soffit Board is an ideal choice for any outdoor space. It can be used to cover the underside of the eaves or as cladding for interior walls, providing insulation and ventilation to the home. This product is perfect for residential or commercial properties, offering a low maintenance and durable solution. It is resistant to mould, rot and decay, making it a reliable and long-lasting option.

HB-DECOR UPVC Soffit Board is designed for use as a weather shield and is an ideal choice for roofs, walls, soffits and fascias. This product is lightweight, easy to install and is available in a variety of sizes. It is highly durable and can withstand harsh weather conditions. This UPVC Soffit Board provides a low maintenance and cost-effective solution for any outdoor application.
