- Maintenance: Low
- Thickness: 1mm
- Colour: White
- Material: UPVC
- Chemical-Resistant: Yes
- Highlight: 600mm UPVC Soffit Board,
UPVC Soffit Board OEM,
Moisture Resistant UPVC Soffit Board

Product Description

Chemical-Resistant PVC Soffit is a reliable solution that safeguards your investment. PVC soffit with this property is specifically designed to withstand the damaging effects of harsh substances.

In many environments, substances like cleaning agents, industrial chemicals, or even pollutants in the air can pose a threat to the integrity and appearance of building materials. However, the chemical-resistant nature of this PVC soffit acts as a shield.

It prevents these substances from causing corrosion, discoloration, or degradation. This protection ensures that your soffit retains its quality and functionality over time.

By choosing Chemical-Resistant PVC Soffit, you are taking a proactive step to protect the value and aesthetics of your property. It offers peace of mind, knowing that your investment is well-protected from the potential harm of harsh chemicals.

Technical Parameters:

Feature	Specification
Installation Method	Screws
Size	5m
Durability	High
Weather Resistance	Yes
Width	300mm
Finish	Smooth
Maintenance	Low
Colour	White
Moisture Resistance	Yes
UV Resistance	Yes

Applications:

HB-DECOR Unplasticized Polyvinylchloride (UPVC) Soffit Board is designed to provide homeowners with excellent weather resistance and low maintenance cost. The PVC SOFFIT is made with high-quality Unplasticised Polyvinyl Chloride (UPVC) material with a smooth finish, which ensures high weather resistance and a long-term performance. It is also fire-resistant and comes with easy installation with screws. The UPVC Soffit Board is suitable for different residential and commercial purposes and can be used in various weather conditions.

The UPVC Soffit Board can be used to protect eaves and roof underhangs from weather damages. It also helps to provide superior air circulation and ventilation, and prevents the build-up of moisture. The UPVC Soffit Board is easy to install and maintain, and it can be cut to fit any shape or size. It is also lightweight and durable, making it a great choice for a variety of applications. It is also an ideal choice for areas that experience extreme weather conditions, providing superior protection and long-term performance.

Customization:

HB-DECOR Unplasticized Polyvinylchloride Soffit Board (UPVC Soffit Board)

Brand Name: HB-DECOR
