Basic Information

- Place of Origin: CHINA
- Brand Name: HB-DECOR
- Certification: MSDS,ISO,CE
- Model Number: WPC WALL PANEL
- Minimum Order Quantity: 3000SQM
- Price: USD4-10/M2
- Packaging Details: CARTON
- Delivery Time: 10days after receive deposit
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 40CONTAINERS PER MONTH

Product Specification

- Width: 150mm-300mm
- Mildew Resistance: Yes
- Warranty: 10 Years
- UV Resistance: Yes
- Length: 2.2m/2.7m/3m/4m/5.8m/or Customized
- Moisture Resistance: Yes
- Installation: Easy
- Surface: Smooth/Embossed/Groove
- Advantage: UV Resistance
- Highlight: 300mm WPC Wall Cladding,
UV Resistance WPC Cladding Panels,
300mm WPC Cladding Panels

Product Description

WPC wall cladding, especially the UV resistance WPC cladding panels, offer a revolutionary solution for enhancing the appearance and durability of your walls.

The UV resistance feature of these WPC cladding panels is a key advantage. It enables them to withstand the harmful effects of ultraviolet rays from the sun without fading, warping, or deteriorating over time. This ensures that the cladding maintains its original color and integrity, providing a long-lasting and attractive finish to your walls.

WPC (Wood Plastic Composite) material combines the best properties of wood and plastic. It mimics the look and feel of wood while offering superior durability and resistance to moisture, rot, and insects. This makes the WPC cladding panels suitable for a wide range of outdoor and indoor applications.

The panels are easy to install, either through interlocking systems or with simple fasteners, saving you time and effort during the installation process. They also require minimal maintenance, allowing you to enjoy their beauty without the hassle of frequent upkeep.

For instance, in outdoor settings such as gardens, patios, or pool areas, the UV resistance WPC cladding panels can withstand the elements and provide a charming backdrop. Inside, they can be used in living rooms, bedrooms, or commercial spaces to add a touch of natural warmth and style.

In conclusion, the UV resistance WPC cladding panels are an ideal choice for those seeking a durable, low-maintenance, and aesthetically pleasing wall cladding solution that can stand up to the challenges of the environment.
